

### **ISAT Cycle I 2020 – Remote Proctored Sitzings**

Due to the current global situation, it is apparent that it is not possible to proceed with the ISAT May 2020 Cycle I test sittings, as currently scheduled. ACER has been working with Prometric to put together an option for candidates who wish to sit Cycle I of ISAT testing, online and via remote proctoring.

Candidates who wish to sit their Cycle I 2020 ISAT sitting online via remote proctoring, will sit the ISAT at home or at a private location of their choosing. All candidates sitting ISAT online, will be required to have a **stable internet connection** and a **suitable working computer, no iPads or tablets**.

Cycle I **results** will be released to candidates and institutions within **2 weeks** of the last day of remote proctored test sittings, on May 24 2020.

### **HOW TO REGISTER**

*Candidates who have not yet completed a registration for Cycle I 2020 of ISAT, and wish to register for an online proctored sitting, will need to email the ISAT office with their full name, contact number and email address.*

*The ISAT office will securely forward your details onto Prometric. Prometric will then contact you in regards to scheduling a remote proctored sitting.*

*You do not need to contact Prometric to create a new registration for a cycle I 2020 remote proctored sitting.*
